National Capital Area

# About the YWCA National Capital Area

Founded in 1905, the YWCA National Capital Area is one of the oldest multicultural women's organizations in Washington, DC. Through direct services, partnerships and advocacy, we dismantle barriers faced by women and girls of color as we help them develop and sustain healthy lives.

**Our Mission** is to eliminate racism, empower women, and promote peace, justice, freedom, and dignity for all.

**Our Bold Goal** is to provide women and girls of color in high-need communities, across the national capital area, with the resources and support necessary to achieve personal, educational and professional success.

## What We Do

**Education and Workforce Development:** We provide essential education and life skills that equip women to enter sustainable career pathways. Our services include providing adult basic education; and certifications in administrative support services, hospitality and home health aide or CNA; GED preparation; and job placement assistance.

**Youth Development:** We inspire young leaders who are self-aware, socially conscious, and committed to achieving personal success. In partnership with DC Public Schools and Prince George's County Schools, our work includes academic enrichment programs; career exploration; health and wellness; mentoring; introduction to careers in science, technology, engineering, arts, and math (STEAM).

**Advocacy & Social Justice:** We increase public awareness and engagement around issues central to eliminating racism and improving the lives of women and girls, such as racial justice and civil rights; economic empowerment; and health and safety.

# Build Relationships and Strengthen Communities

We value like-minded individuals, foundations and companies with leaders who believe that doing good for women is good business and good for our community. Partnership opportunities for the **2019 Empowering Every Woman Luncheon** will promote your business to an audience of 300+ inspired professionals who are open to new ideas and committed to bettering the national capital area by empowering women, eliminating racism, and promoting peace, justice, freedom and dignity for all.
